

National Disability Insurance Scheme (NDIS)

The National Disability Insurance Scheme (NDIS) is the new way of providing support for Australians living with disability, their families and carers. The NDIS takes a lifetime approach, investing in people with disability early to improve their outcomes later in life.

We offer a range of supports, including:

NDIS Coordination of Supports

TeamHEALTH Coordinators can help you to understand how the NDIS works, how to best utilise your plan and how to alter or adjust your funding if your needs and circumstances change.

Coordination of Supports Funding comes from the Support Coordination section of your NDIS plan

NDIS Outreach

We provide a broad range of non-clinical capacity building supports including social skill, employment support, life skill and tenancy supports. We also provide life transition planning, mentoring and peer support using a person-centred recovery approach.

Core Outreach supports funding comes from the Core funding section in your NDIS plan.

NDIS Community Hub

TeamHEALTH runs a day centre where NDIS participants are welcome to drop in and participate in scheduled activities or just grab a cup of coffee, socialise and explore.

Funding for this support comes from the Core or Capacity Building sections in your NDIS plan and pricing is at a group rate.

TeamHEALTH actively promotes and supports an inclusive and diverse culture. We welcome all people, regardless of age, gender, race, ability, sexual orientation, faith, religion and all other identities represented in our community.

For more information about our supports or referral pathways, please feel free to contact us.
